MEMORANDUM FOR Tainter Town Board

FROM: Tainter Town Plan Commission

SUBJECT: Revision and Update of the Year 2020 Land Use Plan

1. The Town Plan Commission is updating and revising the Year 2020 Land Use Plan so as to be in full compliance with Wisconsin Statute 66.1001. By statute, a comprehensive plan must be updated every 10 years with projection for next 20 years. Our revised plan, in addition to adding four deficient elements, will be updated to take us out to about the year 2030. This letter provides a written outline of our update and revision procedures and requests Town Board approve these proposed procedures and timeline below.

2. To foster public participation, the Plan Commission will hold a public visioning session on Tuesday, February 5, 2008 at 7:00 pm in the Town Hall to collect and discuss inputs from Town property owners or leaseholders. Town members were notified of this meeting in the annual Town newsletter sent out in December 2007 and we will post the open meeting in accordance with Wisconsin Statutes. Our complete proposed procedures and timeline for comprehensive plan adoption is:

**February 2008** – Public visioning session.

**February 2008 to June 2008** – Work on missing plan elements.

**February 2008 to December 2008** – Plan revisions and updates made available to Town members and written public comments accepted. Written copies of plan drafts provided to public upon request.

**June 2008 to December 2008** – Break out elements of the current Year 2020 Land Use Plan to provide a consistent format.

**January 2009** – Town Board plan review

**February 2009** – Send plan to Foth & Van Dyke for completeness review, consolidation and publication.

**June 2009** – Hold public hearing on plan and ordinance to adopt the plan.

**August 2009** – Adopt plan and plan ordinance. Send plan copies to recipients as required by Wis Stat 66-1001.

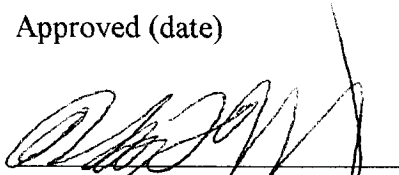

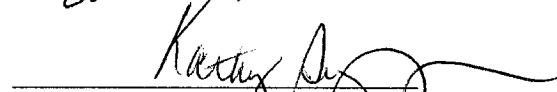

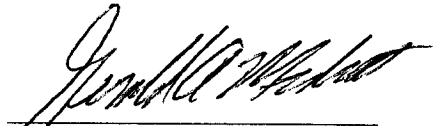

Respectfully,

Darwin Anderson  
Chairman, Town Plan Commission
